

CLEARSONIC CARRYING CASE

DESCRIPTION

Protect your investment. These super strong zippered cases help keep your ClearSonic panels looking like new! Each case will hold up to a 7-Panel system and is manufactured with a padded lining that helps protect your panels. Comes with handles and a zippered pouch.

These durable cases come with a one year warranty.

The CH5, CH4, CH18, and CH12 Hard Cases are made using .098" molded ABS plastic and feature plenty of foam padding, plywood reinforced end panels, stamped zinc-plated steel corners, aluminum angle brackets on the CH5, heavy nylon straps, and an ample number of spring loaded cushioned handles for easy and comfortable transport. These new cases are built for the road and are in stock and ready to ship.
