

## ISO-STEP FLOOR UNDERLAYMENT

### DESCRIPTION

Iso-Step Floor Underlayment is an environmentally friendly rubber based product made from recycled tires that is available in 1 pound per square foot and 2 pound per square foot models. It offers credible sound reduction of both airborne and structure borne noise.

Iso-Step Floor Underlayment also offers STC performance superior to other underlayments in the market today. The ¼" thick model has an STC 26, and the ½" thick model has an STC 31.

Iso-Step can be installed over wood or concrete subfloor and can be installed beneath hardwood, vinyl, tile and carpet flooring. Iso-Step Floor Underlayment is economically priced and ships quickly.

### TECHNICAL CHARACTERISTICS

Size	4' x 25' rolls
