Minimum clearance at head of frame is 3/16". For doors greater than 1-3/4", clearance is 1/4".

**LIFT:** At 180" opening is 5/16"

### DESCRIPTION

Our Cam Lift hinge is a mortise-style hinge for use with sound secure doors utilizing acoustical seals. The cam lifting action greatly improves the sealing characteristics along the door perimeter, lifting and lowering the door with the swing.

Cam Lift Hinges will not bind door closures when doors are hung within accepted industry standards. The hinges are cast in stainless steel and available for either left or right hinged doors.
