DESCRIPTION

Our AlphaSorb[®] Anchorage Ceiling Cloud offers a crepe style weave in many vibrant colors to treat your space for aesthetics and acoustics. These clouds are suspended from the ceiling to absorb echo and reverberation to improve the sound quality.

Available in a wide variety of sizes and colors, Anchorage cloud panels allow you to create an effective sound control treatment that is distinctly appropriate for your environment. These hanging clouds come in standard or custom sizes, up to 4' x 10' in 1" or 2" thicknesses.
